

# Réseau pour transformer les soins en autisme

## Transforming Autism Care Consortium

The TRANSFORMING AUTISM CARE CONSORTIUM (TACC) is a research network that connects and mobilizes Quebec's strengths in autism research to improve the quality of life of people with autism and their families.

We accomplish this by accelerating scientific discovery, building capacity, and integrating evidence into practice and policy

We bring **together** more than **50 researchers** and **200 trainees** across **7 universities** and **100 professionals** and **community members**.

### WHAT WE DO

Bring together researchers, professionals, decision-makers and community members in a connected and inclusive framework.

**COMMUNITY**  
Integration

**DISCOVERY**  
Quebec 1,000  
Families (Q1k)

Engage 1,000 families in integrated research across hospitals and universities.

**CAPACITY BUILDING**  
Training and Knowledge  
Brokering

Launch open competitive programs for trainees and professionals across sectors.

# Festival Autisme

Rendez-vous entre la science et la société

## Autism Festival

Celebrating the Intersection of Science and Society

The first of its kind, the Autism Festival brings together autism communities by showcasing local success stories in advancing autism science and an inclusive society. TACC is pleased to work with our different partners to promote a series of events designed to engage the community, alongside the INSAR conference.

### **WED. MAY 1, 2019, 8:30 AM – 4 PM** **Local Pre-INSAR Community Conference**

**Palais de congrès**  
*For professionals, community and public*

This local community conference will highlight some of the international speakers from the main meeting, along with scientists/clinicians from the local community. The conference will also feature interactive workshops led by researchers and professionals on topics selected in consultation with community stakeholders.

### **WED. MAY 1 – FRI. MAY 3, 2019** **TACC Booth No. 106 – INSAR**

**Palais de congrès**  
*For registered INSAR annual meeting attendees*

Come meet the TACC team and learn about our different initiatives including our research, training, and community programs.

### **THU. MAY 2, 2019** **The Story Collider Presents:** **Stories from Spectrum**

**Show: 7 pm – 8:30 pm**  
**Centre Phi, 407 rue Saint-Pierre**  
*For public*

The Story Collider, a live show featuring true, personal stories about science, is delighted to partner with Spectrum News for this special event with stories about experiences with autism – from the scientists who study it, medical professionals, patient advocates, family members, and those who've experienced it firsthand.

### **FRI. MAY 3, 2019** **AutismCreates**

**Pre-show cocktail: 5 pm – 7 pm**  
**Exhibit & performances: 7 pm – 8:30 pm**  
**Nordheimer Room, Hotel InterContinental**  
*For public*

An extraordinary celebration that bridges the worlds of autism, art and science of the brain, we are delighted to showcase the breadth of creative expressions from our autism communities.

### **SUN. MAY 5, 2019, 9:30 AM – 12:00 PM** **Pathways in Developmental Health**

**Wagar Adult Education Centre**  
**5785 Avenue Parkhaven, Côte Saint-Luc**  
*For professionals, individuals on the spectrum & families*

Addressing developmental pathways across the lifespan, the conference will showcase what researchers have learned over the course of more than a decade working with hundreds of families. The findings will be shared from the perspectives of the different stakeholders.

**For complete event details, including registration fees and reservation information, please go to [rtsa-tacc.com](http://rtsa-tacc.com)**
