

About us.

Project Management:

Our Project Managers are responsible for overseeing each project from start-up to close-out. This includes project planning, resource allocation including budgeting and contract execution, risk management, working alongside the team and data management, ongoing communication and reporting, quality assurance along with completing all close-out activities.

Monitoring:

Our Research Monitors are responsible for overseeing and ensuring that the upmost quality is conducted at the participating research sites from start-up to the close-out of a project. This includes continued adherence to the study protocol and ensuring compliance with all regulatory requirements. Ongoing data accuracy verification is conducted to ensure that study data is complete and of the highest quality.

Who Are We?

Our highly qualified staff ensure that your projects are efficiently conducted from initiation to close-out.

Our team ensures that your projects are conducted on time, within budget and in accordance with regulatory guidelines.

Why Us?

Best Quality

We are a group of highly skilled professionals who have expertise from all specialties.

Team Work

We ensure to work and collaborate as a team so that we can all succeed as a team.

Facilities

At the CIM we have state of the art facilities, with dedicated platforms that bring together our multidisciplinary research teams.

More Information

Our team has experiences with numerous study designs including;

- Registries
- Phase 1-4 Trials
- Investigator Initiated
- Sponsor Initiated
- Observational
- Multi-Site (Local, National & International)
- Randomized Controlled Trials

Research Monitoring and Management Services

Centre for Innovative Medicine (CIM)

Let us help.

01.

Project Management Services

Regulatory submissions to governing agencies.

02.

Monitoring Services

Includes site evaluation, initiation, routine monitoring, remote monitoring and close-out.

03.

Project Management Services

Site and investigator selection including meeting planning and logistics.

04.

Monitoring Services

Compilation of visit report and log summaries.

05.

Project Management Services

Contract and budget negotiations, along with research ethics board (REB) submissions.

06.

Monitoring Services

The liason between study sponsor and clinical research team.

07.

Project Management Services

Providing ongoing site support and overseeing the progress.
