

Quebec 5th Annual Extracellular Vesicle Workshop

The Quebec Extracellular Vesicles Network is hosting its 5th Annual Quebec Extracellular Vesicle Workshop. The meeting is designed for all scientists, students, professionals, and organizations with an interest in extracellular vesicle (EV)-based research in Quebec and surrounding regions of Canada.

This year we are back to an in-person format with the goal of bringing together the EV research community, creating a platform for networking and collaboration, and sharing exciting EV research.

**November 21st 2023, Glen Site - Cruess Auditorium
RI-MUHC, Block E**

**Featuring Dr. Hakho Lee, a Professor at Harvard Medical School as Keynote
Speaker:**

**Novel Biomedical Sensors for detection of EVs in
clinical Applications**
