

Join us for an upcoming seminar:

Visualize the Future of Flow Cytometry

March 13, 2024 at 1:30 p.m. – 3:30 p.m.

Cruess Amphitheater, RI-MUHC
Glen Site - Block E
Room S1.1129

Dianne White & Emily Chornshyn
Technical Application Specialists
BD Biosciences

Derive greater insights and unlock new discoveries using the image-enabled spectral sorter BD FACSDiscover™ S8 with BD SpectralFX™ and BD CellView™ technology. Improve data resolution with the family of BD Horizon RealYellow™ and BD Horizon RealBlue™ reagents. Driven by next generation dye technology and AI-guided fluorochrome selection to optimize spectral positioning, our new family of reagents is specifically engineered to deliver reduced spillover, helping to expand experiments on both conventional and spectral flow cytometers.
