

## Clinical Proteomics Platform Seminar - Oct 23<sup>rd</sup> 2018

# Protein Biomarker Discovery and Development using Olink PEA Technology

**Narges Rashidi, PhD**

Proximity Extension Assay (PEA) is a molecular technology optimized for multiplexable and highly specific protein biomarker discovery using only **1  $\mu$ L** of sample (plasma, serum, urine, CSF, etc.)

Details of the technology will be discussed along with some key clinical biomarker applications.

Tuesday, October 23<sup>rd</sup>, 2018 12:00 – 2:00 pm  
Research Institute of the MUHC,  
Centre for Translational Biology (CTB),  
1001, boul. Décarie, Block E, Room EM1.3509

### Free Registration
