

MONDAY NOON SEMINARS

Mallory Downie, MD, FRCP(C)

PhD Candidate, Department of Renal Medicine,
University College London, Specialist Registrar,
Great Ormond Street Hospital, London, UK

September 20, 2021, 12-1 PM

Using genetics to understand childhood nephrotic syndromes

Seminar Highlights

- Genetic linkage reveals a new locus on the X chromosome in familial membranous nephropathy
- Genetic risk scores can help us understand the clinical overlap between steroid sensitive and steroid resistant nephrotic syndrome
- How to untangle the influence of genetics and environmental modifiers of steroid sensitive nephrotic syndrome
