

MONDAY NOON SEMINARS

Andraea Van Hulst, RN, PhD

Assistant Professor, Ingram School of Nursing, Faculty of Medicine and Health Sciences, McGill University

March 7, 2022, 12:00-1:00 PM

The role of early life, family, and neighbourhood environments in childhood obesity and cardiometabolic health

Seminar Highlights

- To describe the epidemiology of childhood obesity and its cardiometabolic consequences
- To appreciate the influences of early life as well as family and neighbourhood environments on healthy growth and development
- To present a research program that bridges risk factor identification and intervention development using socio-ecological approaches
