

## **MONDAY NOON SEMINARS**

**Shyamala Dakshinamurti, MD, MSc, FRCPC**

Professor of Pediatrics and Physiology, University of Manitoba, Neonatologist, Women's Hospital, Biomedical Researcher and Director, Neonatal Pulmonary Biology Lab, Children's Hospital Research Institute of Manitoba

**April 11, 2022, 12-1 PM**

# **Hypoxia, Pulmonary Hypertension, and the Unexpected Dance of Molecules**

## **Seminar Highlights**

- To describe the impact of oxygen level on fetal homeostasis and circulatory transition at birth.
- To review the effects of hypoxia on contraction and relaxation of the pulmonary circuit.
- To discuss the importance of molecular interactions in PPHN pathophysiology – i.e. where do you live, how do you dress, and who do you know?
