

## CLINICAL AND REGULATORY AFFAIRS PROGRAM OFFERED BY THE RI-MUHC

**Emily Bell, PhD, Grad Cert** (Health Services Admin)  
Associate Director  
Desjardins Centre for Advanced Training

**Penny Chipman, CCRC, CCRP**  
Manager, Oncology Research  
Centre for Innovative Medicine

### International Clinical Trials Day Conference

May 20, 2022 (12:00-1:00)

#### Title: Strategies for Addressing Diversity and Inclusion in Clinical Research

**Renee Yin Yu, PhD Candidate** - McGill Centre for Research in Neuroscience

Renee Yu is a PhD candidate in Dr. Brian Chen's lab at the Centre for Research in Neuroscience, part of the RI-MUHC BRaIN Program. For her thesis project, she is identifying molecules involved in hard-wired circuit formation using *Drosophila melanogaster*, or the fruit fly, as a model. While her thesis project is heavily focused on fundamental research, Renee's interest in drug development and clinical research motivated her to join the Clinical and Regulatory Affairs Program offered by the RI-MUHC and Co-Directed by Emily Bell and Penny Chipman. As a result of her participation in this program, she became very interested in the issue of diversity and inclusivity in clinical trials.
